Led the development of a comprehensive | Restaurant Reservation and table management for a restaurants, including features such as Menu card, dishes,famous hotels.

Technologies Used: HTML,CSS,JS

Loomify – Handmade Goods Online Marketplace   APRIL-2025
Loomify is a full-featured online marketplace designed to connect local artisans and buyers. Built using HTML, CSS, JavaScript, PHP, and MySQL, the platform allows users to browse, search, and purchase unique handmade products. It includes role-based access for buyers, sellers, and admins, secure user authentication, product management, order handling, and a responsive UI styled with Tailwind CSS. Loomify empowers small creators by giving them a dedicated space to showcase and sell their crafts online.

Technologies Used: HTML,CSS,JS,Tailwind Css,Php and Mysql

ACHIEVEMENTS & HACKATHONS

- 3 Stars in Hacker Rank.
- I participate in Hackathon and we developed a website for tours & travels.
